From our friends at MSC

We all want the oceans to be healthy, productive, and full of life in the future. That's why the MSC developed the blue fish label - so you can easily identify seafood that comes from certified sustainable fisheries. Sustainable fishing reduces environmental impacts, guards against overfishing, and ensures food security and livelihoods for millions worldwide. Look for the #MSCbluefish label on seafood products to help us keep our oceans and seafood stocks healthy and wild for generations to come!
