

Key Resource Contacts

Ontario Sailing recognizes that hosting a regatta can be a large undertaking. In some cases the Host Club has a wealth of experience and ample resources. In other cases, this is a relatively new experience, either for the club or for those who have volunteered. While Ontario Sailing can not run the regatta for you, we can certainly help, especially with the highly technical aspects involving Race Management and Protest Committees.

Below you will see the contact information for several individuals at Ontario Sailing who are available to assist. Each of them has years of experience in running regattas, and were closely involved with producing this Regatta Hosting Package. They are available to answer your questions, and assist you with any problems that you may have.
