CLEAN MARINE
PROTECTING ONTARIO'S WATERWAYS

Benefits and Commitment of The Clean Marine Program

The Clean Marine Program was originally formed in 1997, revised in 2008 and again in 2022. The primary goal is to reduce and prevent water, air, and land pollution from recreational boating activities in Ontario.

Member Benefits

- Waste management strategies
- Dock management strategies
- Yard management strategies
- Office energy and waste reduction strategies
- Emergency Preparedness and Response Plans
- Legislation and “due diligence” awareness
- Education and Networking
- Increased retail opportunities with environmentally friendly products
- Access to dedicated Clean Marine staff
- Right to fly The Clean Marine Flag and promote the Clean Marine Brand

Commitment to The Clean Marine Policy

Our facility understands and recognizes the vital importance of maintaining a clean, natural environment as being fundamental to our success.

In accepting and adopting those best management principles and operating practices that are appropriate to its operation, this facility commits itself to the best of its ability to:

- Eliminate the release of contaminants to the water column, both directly and indirectly
- Minimize the release of pollutants to the atmosphere
- Avoid contamination of the ground
- Adopt waste reduction, reuse, and recycling strategies
- Optimize energy and water conservation
- Promote good environmental practices to all parties
- Abide by and, where possible, exceed the requirements of all relevant legislation
